MEDICAL ASSISTANT APPRENTICE

Earn as You Learn

Get paid to train as a respected health care professional. Monument Health's 12-month Medical Assistant Apprenticeship program is perfect for recent high school grads, people looking to make a career transition or current health care workers ready to move up. As an apprentice, you'll work with established health care professionals who will teach you the job and help you get certified for a rewarding, long-term career. The best part? All your schooling is on the clock.

What is Registered Apprenticeship?

Registered Apprenticeship is a high-quality career pathway where individuals can obtain paid work experience and an education while working full time and avoiding student debt.

Apprentices receive progressive wage increases, classroom instruction and a nationally-recognized credential.

Registered Apprenticeships are approved and validated by the U.S. Department of Labor or a State Apprenticeship Agency.

Apprentices:

- Earn as you learn with a guaranteed wage increase as you develop new skills as a Medical Assistant
- Receive a nationally recognized, portable credential
- Ease the transition from school to career by working and learning at the same time
- Gain valuable skills through on-the-job learning
- Obtain associate level equivalency as a Medical Assistant while completely avoiding tuition, fees and student debt
- Connect with mentors who can help you advance your career

Medical Assistants assist nurses and providers with over 100 clinical tasks in both primary and specialty care areas that include:

- Preparing the examination and treatment areas
- Completing patient rooming procedures to include vital signs
- Accurately administering and documenting unit dose medications and immunizations
- Ensuring documentation in the patient record is accurate, clear and concise
- Completing all assigned clerical activities, supply maintenance and ordering
- Assisting with scheduling follow-up care
- Distributing pre-approved patient education materials
- Educating patients and family members how to safety ambulate with assistive devices
- Assisting providers with multiple screening exams and specialty procedures
